I am interested in participating in GCEA’s Weatherization Workshop for Women by offering my home to be used as a training site. I understand that participation in the program requires the following commitments:

1. Initial site visit by GCEA staff to determine suitability of my home for energy efficiency demonstrations.
2. Scheduling a pre-class site visit with the class instructor.
3. Opening my home to workshop participants for 3-4 hours on one Saturday between September 2009 and February 2010.
4. Permitting class participants to practice energy efficiency/weatherization exercises under the guidance of the class instructor.

In exchange for allowing the class to be held at my home, I will receive a free energy audit from GCEA and the benefit of energy efficiency improvements made to my home during the class.
