

# GCEA ENERGY EFFICIENCY REBATE PROGRAM

GCEA partners with Tri-State Generation and Transmission Association to offer the following energy efficiency rebates to our members. Members may receive rebates for any of the energy efficiency measures listed in the table below.

SYSTEM OR APPLIANCE	REBATE
<b>LED Light Bulbs and Fixtures with LED Lighting Built In</b>	<b>50%</b> of the cost of the bulb or fixture up to a maximum of \$10/bulb or fixture Bulbs must be 500 lumens or greater Maximum of 50 bulbs per member account per year
<b>* Refrigerators or Freezers</b> Over 7.75 cubic feet	<b>\$110</b> for new Energy Star® rated appliance With mandatory recycling of old appliance
<b>Clothes Washers</b>	<b>\$60</b> for new Energy Star® rated front load <b>\$50</b> for new Energy Star® rated top load
<b>Clothes Dryers</b>	<b>\$30</b> for new Energy Star® rated appliance <b>\$90</b> for new hybrid heat pump appliance
<b>Dishwashers</b>	<b>\$35</b> for new Energy Star® rated appliance
<b>Electric Water Heater</b> Minimum 30 to 55-gal capacity	<b>\$50 per unit</b> Additional \$20/unit for lifetime tank warranty (e.g., Marathon)
<b>Heat Pump Water Heater</b> Min. 30-gal capacity, 6-yr warranty, Energy Star® rated	<b>\$370/ton</b> for primary heating by direct exchange with semi-conditioned room air Additional \$20/ unit for lifetime tank warranty (e.g., Marathon)
<b>Electric Thermal Storage</b> Permanently installed units only	<b>\$22/kW</b> for ETS controlled by timer or master control system
<b>Electric Ground Source Heat Pump</b>	<b>\$200/ton</b> for central ground source Plus \$150 per unit; Additional \$100/unit for minimum 1 ton to less than 3 tons

All rebates above must be requested within 180 days of installation.

\* Exceptions to this rule include refrigerator installation in new building construction or when a home or business is purchased and a refrigerator was not present in the home or business. In this event, the incentive amount is \$50.

# LIGHTING REBATES

## RESIDENTIAL AND SMALL COMMERCIAL LED LIGHTING REBATES

GCEA and Tri-State Generation and Transmission offer rebates for LED light bulbs and fixtures with LED lighting built in for residential and small commercial use within our service area. GCEA members are eligible to receive a rebate of 50 percent of the LED cost up to a maximum of \$10 per bulb or fixture (not including any shipping or taxes). LED bulbs must be 500 lumens or greater. Qualified applicants can apply for rebates for a maximum of 50 bulbs and/or fixtures per member account each year for installation within GCEA's service area.

## COMMERCIAL LIGHTING REBATES

Gunnison County Electric Association and Tri-State Generation and Transmission offer a commercial lighting program that provides an incentive for member businesses to retrofit existing lighting systems with newer, energy efficient systems. Rebates are available for fixtures within buildings and parking garages, as well as canopy lighting and "wall packs" mounted to the outside of buildings. Rebates are calculated according to energy saved. Qualified applicants receive \$250/kW saved with a cap at 50% of the fixture material and a maximum of \$20,000 per member account per year.
